

Buxton Lime is the UK's market leader in the supply of sustainable lime solutions. Our innovative products allow us to continue to diversify our end-markets and act as a vital resource for global sustainability. We work with associated companies operating in Germany, the Czech Republic and Ireland to serve markets in Europe and the rest of the world.

*This policy confirms our approach to improving energy efficiency performance and supporting our customers with innovative, sustainable products, services and solutions.*

#### To support our approach, we will ensure that:

- We comply with all energy legislation and other relevant voluntary codes or practices.
- We set objectives and targets, act and review performance to reduce energy consumption.
- We secure line management responsibility for continually seeking new ways to improve energy efficiency performance.
- We review energy opportunities and implement energy management plans and targets at all sites.
- We train employees in energy management, appropriate to their role.
- We invest in energy efficient technologies and ensure that energy efficiency is considered in our business decisions.
- We regularly review and report on our performance.
- Accountability for energy starts with Buxton Lime. In fully supporting and endorsing this approach we will not only be visible in its delivery but also make the necessary information and resources available to implement it.
- This policy is communicated to all Buxton Lime employees and those working on our behalf. It is also available for other interested parties on our website.
- Every employee is expected to work in accordance with the commitments set out in this policy.
- We commit to maintain ISO 50001 certification at all relevant operational locations.

This policy will be reviewed, as a minimum, annually

Peter Butterworth  
*Lime Director*
